

### TRUESTACK TECHNOLOGIES EKYC GATEWAY TRIAL

EKYC Gateway is a demo customer onboarding gateway whereby customers can quickly use to test out and experience eKYC gateway features from a user journey point of view with minimal integration effort.

Please follow the steps below to access eKYC Gateway.

#### **1) Backend Portal Access**

- Weblink and credentials:

URL: <https://staging.xendity.com/site/login>  
 Username: truestack\_gateway\_trial  
 Password: 35PaMs@leH2LeQG

#### **2) Evoking Customer Onboarding Gateway Manually via Backend Portal Access**

- After login, initiate an eKYC Gateway transaction following the steps below:
  - Select 'Standalone EKYC Index' from the left side menu.
  - Input 'Full Name' and 'ID Number' of user that will be onboarded.
  - Select relevant 'Document Type' and 'Package Name'.
  - Select 'Create'.
  - The webpage will reload with the 'Onboarding URL' that can be sent to user to be onboarded via the eKYC Gateway.
  - If required, the link can be sent to users via SMS or email by filling up the 'SMS' or 'Email' field respectively and selecting 'Submit'.

The screenshot shows two main windows. On the left is the Xendity Backend Portal dashboard with a sidebar containing 'Assessment Report 2' and 'Standalone EKYC Index' (circled in green as 'a'). The main area shows a list of reports. On the right is the 'XENDITY EKYC Identity Verification' application. It has a form for 'Applicant Details' (circled in green as 'b') with fields for Full Name (MOHD SPECIMEN BIN ABDULLAH), ID Number, Document Type (MyKad), and Package Name. Below this is a 'Create' button (circled in green as 'd'). An 'Onboarding URL' field (circled in green as 'e') contains the value <https://staging.ekyca.xendity.com/#/guideline?>. At the bottom is a 'Via SMS' and 'Via Email' button group (circled in green as 'f'), with an 'Email' input field containing abc@gmail.com and a 'Submit' button.
